

CC Team

Measure techs

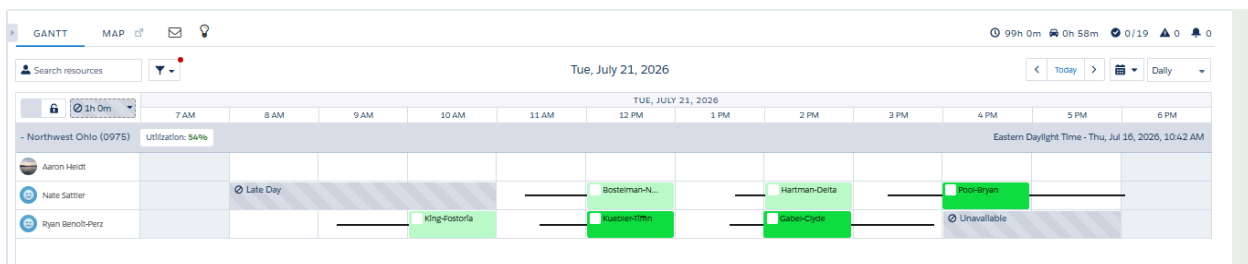

- ⇒ Design Consultant calls in to schedule measure techs or Customer Care calls when able
 - Customer name • City/location • Product count
- ⇒ These homeowners can be found under **Opportunities** (new order) in rForce or in **Customer Care / Personal Dashboard** (once order has been moved to sold)
- ⇒ Review Tech Measure Scheduling Report and Gantt chart for available appointment slots and schedule the first available opening, based on territory.

Report: Work Orders

⇨ Available appointment blocks:

- 9:00–10:00 AM (5 windows or less in LOCAL)
- 10:00–12:00 PM
- 12:00–2:00 PM
- 2:00–4:00 PM
- 4:00–6:00 PM late-day appointment

⇨ Typical hour capabilities:

- 2 - 3 Doors
- 8 - 10 Insert Windows
- 6 - 8 Full Frame Windows

Ryan Office Day: Wednesday

Ryan Late Day: Thursday

Nate Office Day: Thursday

Nate Late Day: Tuesday

⇨ If the work order is available in rForce, the appointment is scheduled directly. If not, the time is blocked in the Gantt until the work order becomes available.

⇨ 3 - 4 Appointments per day

⇨ Over 20 products needs to have 2 techs

⇨ Bays and Bows need to be scheduled with one tech and Aaron

⇨ Any appointments outside of these blocks need to go to Aaron

⇨ Put-In-Bay / Islands: Book Ferry (Miller Ferry 800-500-2421) - Schedule return time

⇨ Special Instructions: gate codes, call ahead, ect - update in **Notes to Construction Dept** down in the notes in the work order

⇨ Reminder Texts: 2-1 day before appointment

⇨ Homeowner Requirements: homeowner must be present to make final selections

⇨ Start on home page

⇨ Look up address of homeowner

⇨ Select the correct **Account Name**

⇨ Go to **Orders**

⇨ Open **Order Number**

⇨ Go to **Work Orders**

⇨ Open **Tech Measure Work Order Number**

⇨ Use **Time Slots** to schedule

→ Number of Resources needed - how many techs need to be there

→ Duration - time at appointment (typically leave at 1 (1 hour) so we can factor in drive

time

→ Earliest Start Date- date you want it on

→ Due Date - date to be done by (typically the next day)

→ **Get Time Slots**

→ Select 9AM, 10AM, 12PM, 2PM or 4PM

→ Select tech

⇨ Remotes

→ Aaron will email if a Medida / Remote has been successful or not

→ Go to Field Service and move appointment to Aaron at the time he emailed

→ Mark as Remote

⇨ Reschedules

→ Same as scheduling- select **Time Slots** and schedule for the rescheduled day

→ Scroll down to **Rescheduled Date** and **Rescheduled Reason** and fill it out

Install

⇨ Open **Open orders by Status** in Dashboard

⇨ Scroll down to **Installs Needed** and select **Order Number** from list

⇨ Look at **Purchase Orders** for ETA of products

⇨ Go to **Files** and open up **Install Instructions** to see if products are Painted / Stained

*Painted / Stained products 3 weeks out from ETA

*Non Painted / Stained products 2 weeks out from ETA

⇨ Click on the *down arrow* for the **Crew Assignment** task for duration and who is able to install

*EX: 1 day Sam, Keith. 2 days Logan, Morgan.

*These crews get assigned by Aaron when Procurement gets an ETA for products

*If a Sub is scheduled print out **Sub Inv** from **Files** and put on Micha's desk rack

- ⇨ Look at dates in **Google Calendar** to see when 1st available is open for installer
 - *Make sure you double check with **rForce** and **Calendar Doc** for crew availability

- ⇨ Give homeowner date(s)

- ⇨ Schedule in **Google Calendar**

- Click on date and add in *Homeowner Last name, First name - Installer*
- Enter address
- In description add in *homeowner name and phone number*
- Upload *Install Instructions* for in house leads
- Upload *Install Instructions* and *Install Package* for Subs

- ⇨ Open **Calendar Doc** go to date(s) and put *homeowner last name*

- *Multiple dates make sure to put *Last Name 1/2 - Last Name 2/2*

- *If painted / stained update the sheet to how many products for the week

- ⇨ Schedule in **rForce**

- Log call
 - To Log a call click **Log a Call** on the right of rForce in the **Order**
 - Subject *Date / Time* the call happened
 - Comments describe the call : how would homeowner like to be contacted for

reminders

- Open **Worker Orders - Install**

- Use **Time Slots** to schedule

- Number of Resources needed - how many installers need to be there

- Duration - 8 hours for 1 day, 16 hours for 2 days, 24 hours for 3 days, 32 hours

for 4 days, 40 hours for 5 days.

- Earliest Start Date- date you want it on

- Due Date - date to be done by (typically the next day)

- **Get Time Slots**

- Select 8AM

- Click on installer

- ⇨ Add tasks on Order- Click **New Task**

- Install Reminder 2 Week - in comments put date - set date to 2 weeks before install

- Install Reminder 2 Day - in comments put date - set date to 2 days before install

- Follow Up Install - in comments put date - set for 3-4 days after install

- ⇨ Move files

→ To Move files click on **Images** from the **Order**

→ Scroll down to the bottom of the page and click on **Install Package, Install**

Instructions and **Lead Docs** (if needed) and **Add Files to Install Work Order**

*Lead Docs needed if home was built from >1977 - these should already be in Files if they are needed

⇨ When physical file comes pull out **Install Instructions** and put on the top of the folder *Install Date and Installer*

→ Turn Install Instructions up so they stick out of the folder and place on the black filing cabinets in the back by the measure techs for the paint shop to come pick up

→ Text / Email homeowner dates of install

⇨ If there are any special request or information the install team needs to know update **Notes to Construction Dept**

⇨ When Charlie makes changes (typically moving installers around) update the following:

→ rForce

→ Chatter @nwo scheduling updates the changes

→ Put in the teams Scheduling chat

→ Google Calendar

→ Calendar Doc

⇨ Reschedules

→ rForce

→ Same as scheduling- select **Time Slots** and schedule for the rescheduled day

→ Scroll down to **Rescheduled Date** and **Rescheduled Reason** and fill it out

→ Google Calendar

→ Update the appointment

→ In heading add in POSTPONED and in comments put it original date scheduled and then the rescheduled date. SAVE

→ EX: Moved from 8/3 to 8/5

→ Duplicate the appointment

→ Update the duplicated appointment

→ Update the heading to RESCHEDULED and if there is a new installer change the install name

→ If new installer then be sure to change the calendar to that installer

→ Change to new date and SAVE

→ Calendar Doc

→ Delete the last name in the slot from old date

→ Add last name to new date

⇨ Crews

In House:

·Sam Mormon

·Keith Morris

·Trevor Holewinaki

·Ken Driebergen

·Logan Dotson

·Morgan Michalak

·Tim Fitzpatrick

Subs:

·Randy Taylor

·Alex Taylor

·Tom Snyder

·Shane Grounds

JIPs / SVC

⇨ Job in Progress are within 30 days after install and are initiated by the Installer (day of install) or by the homeowner (during follow up call or calls in days later)

⇒ From installers a write up will come within 2-7 days from the install team

→ Emma will upload write up to the **Service Request Files** and update the service status to either **To Be Ordered** or **To Be Scheduled**

→ Typically written by Charlie, Caleb, Emma if something has been damaged or not complete

→ Written by Measure techs if Miss Measured

JIP Crew:

·Josh Maas

- Todd Williams (Flex)
- Matt Morgan (SVC)
- Josh McIntyre (SVC)

⇨ If using installer for google calendar add in JIP to name

⇨ Download write up, put into RForce on work order (SVC request) and upload to google drive

⇨ Call homeowner with dates in mind / 1st available for JIP team (JMaas) (Todd if needed) (or installer if available)

⇨ Schedule in google calendar (follow steps from install or duplicate past appointment)

*IF duplicate then change installer name then add JIP

→ Change date

→ Get rid of install docs or previous docs and upload new

→ Get rid of sales notes or past notes and in put new

⇨ Schedule in RForce

→ Follow steps for install but use SVC Request instead of in the original order

→ Make sure to move arrows in SVC Request

→ Make sure docs are uploaded to the work order!!

⇨ Schedule in Calendar Doc

→ Input homeowner name with corresponding date(s)

⇨ Fill out paperwork

→ Print out write up and material list (if there is one)

→ Write who is to do JIP and date of JIP

⇨ Chatter that it has been scheduled to Scheduling Updates

⇨ Service is anything 31 days after install date

⇨ Homeowner calls into CC, Cheryl, or DC

→ Transfer to NSA

→ Provide NSA with information

→ Merge calls into a conference & verify everyone is connected

→ Split from the call, then select Transfer (Successfully merge NSA to H/O)

→ If need be can Teams NSA to get things moving quicker

Work Order Details in rForce

Collection – Lindsay to put in collections when sent to Peter

- Install complete / WO collections

HOA – HOA approvals

- Use if customer needs HOA approval. Directions given by DC.
- Responsibility: Procurement Team

Historical – Old West End, Westmoreland, Vistula

- *Do not create a WO for Historical unless hold has been removed and documentation provided*
- Responsibility: Procurement Team

Install – Regular Install Dates, and Use When there is a Mismeasure (New Unit)

Job Site Visit – Operation Management should use this for Job Assessments

- Caleb – Quality
- Charlie – Installation/JIP
